

Benthic Habitat Mapping in Antigua & Barbuda, Dominica, and St. Lucia

[et_pb_section bb_built="1?"][et_pb_row][et_pb_column type="4_4?"][et_pb_text]

Overview

The Nature Conservancy developed satellite-derived maps for biological cover for Antigua & Barbuda, Dominica, and St. Lucia. Benthic habitat maps were completed for all areas out to 30 meters. It is anticipated that the resulting GIS products will be used to inform MSP initiatives.

TNC's Role

- Science/technical expertise

The Nature Conservancy led this effort.

Project Partners

Marine Planning

Practical approaches to ocean and coastal decision-making.

<http://marineplanning.org>

Lead Institution: The Nature Conservancy

Other Partners: : German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (Funder)

Status

Completed in 2016
